Rotational learning experiences are four to five weeks in duration. Longitudinal learning experiences vary in duration and are not directly linked to a specific rotation. Longitudinal projects correlate with longitudinal learning experiences and are independent of clinical rotations.

All rotational and longitudinal learning experiences have at least one assigned preceptor to guide and mentor the resident.

ADRs – Adverse Drug Reactions; MUE – Medication Utilization Evaluation; P&T – Pharmacy and Therapeutics Committee; IRB – Investigational Review Board; RCA – Root Cause Analysis; FMEA – Failure Mode and Effects Analysis; WSC – Western States Conference (residency conference); RLS – Residency Learning System; CRO – Confidential Report of Occurrence (medication errors); ADR – Adverse Drug Reaction *Committee meetings may include Infection Control, Medication Safety, Health Information Management, Antibiotic Stewardship, and others as assigned.

• All rotation evaluations are due on the last Monday of the rotation so that preceptor/resident review is complete by the last Friday of the rotation.

• All quarterly evaluations (i.e., for longitudinal LEs) must be completed by the last Monday of the quarter so that preceptor/resident review is complete by the last Friday of the quarter.
